Difficulty

DUB STUY SOUND SYSTEM

Tutorial

PAPER
SOUND

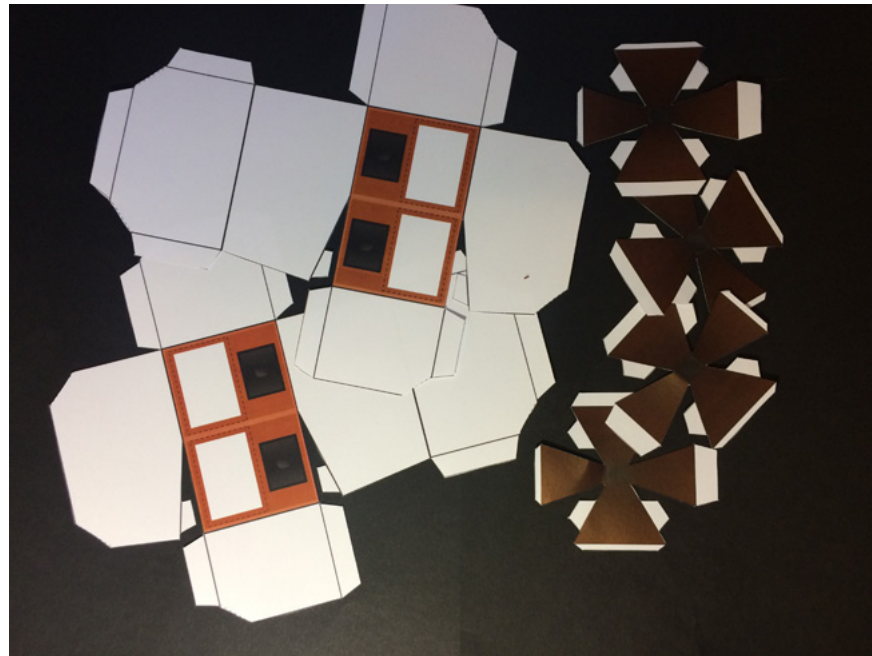

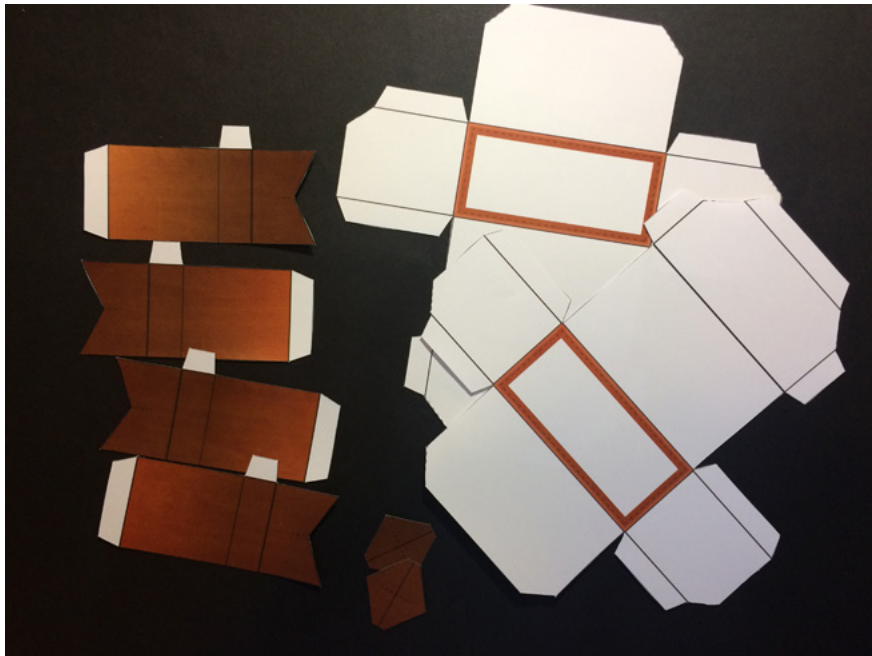

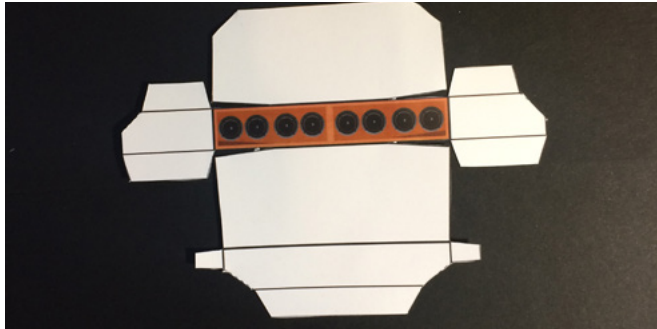

Made by

irie.

STEP 1

Cutting

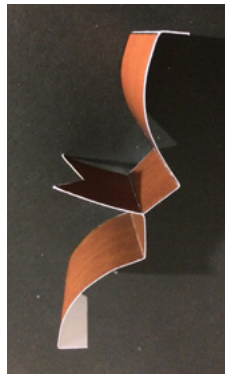

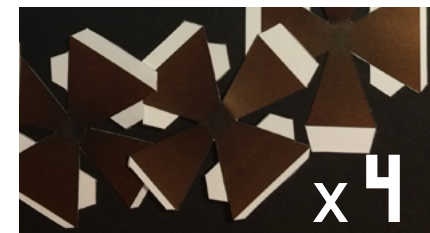

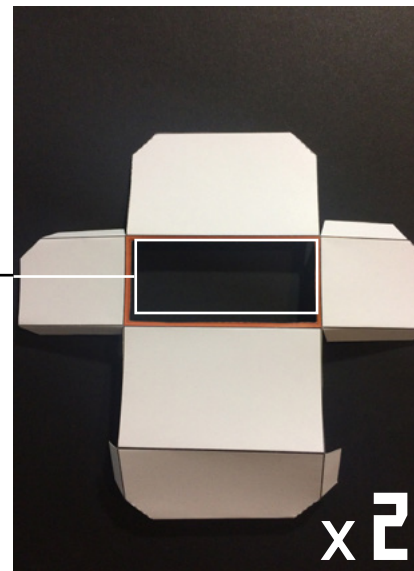

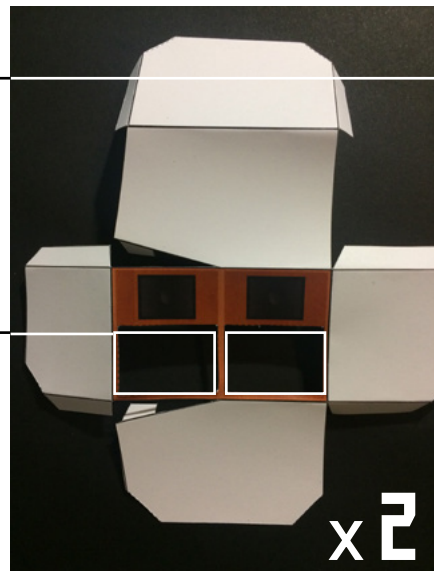

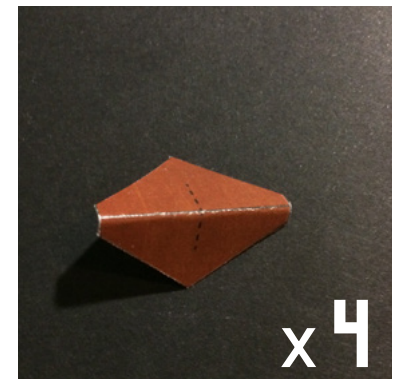

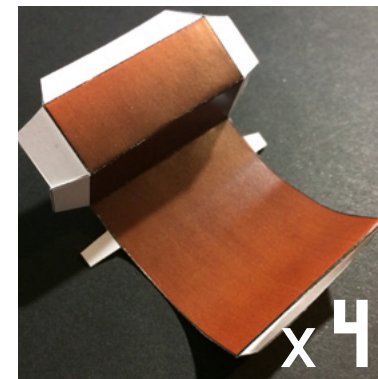

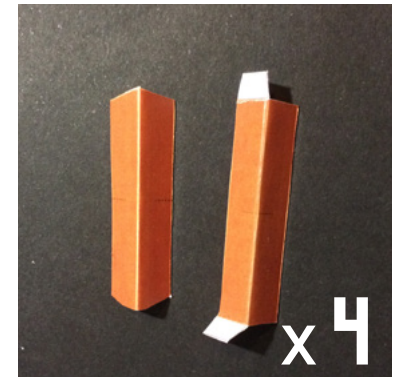

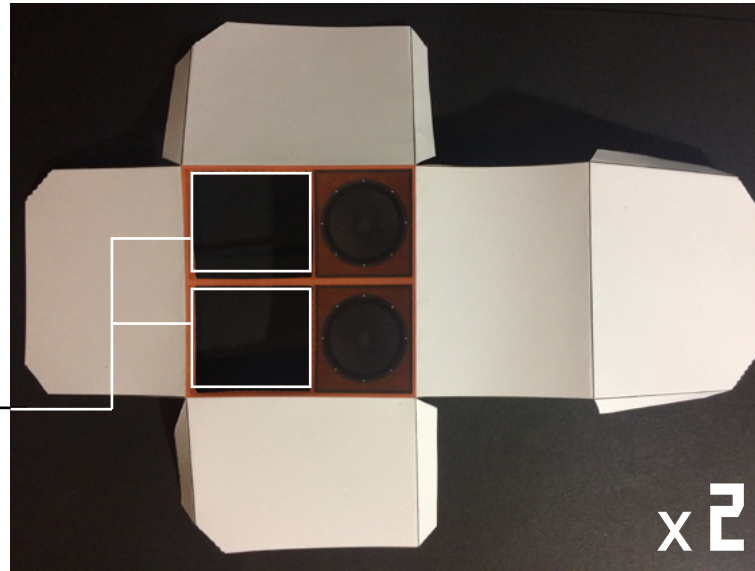

Cut all dotted lines corners

STEP 2

Folding

Remember to cut the lower part of boxes (dotted lines).
Do it after the folding.

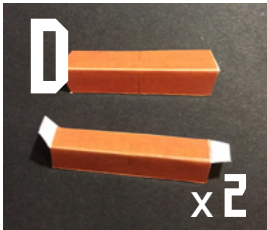

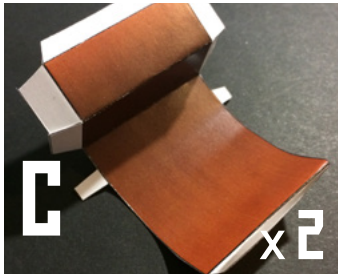

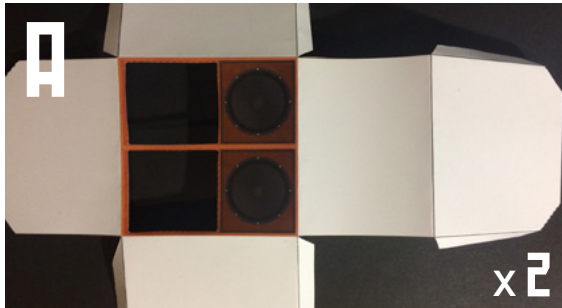

STEP 3

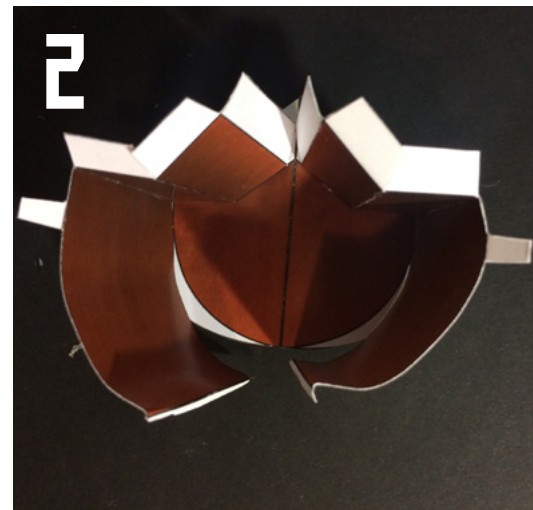

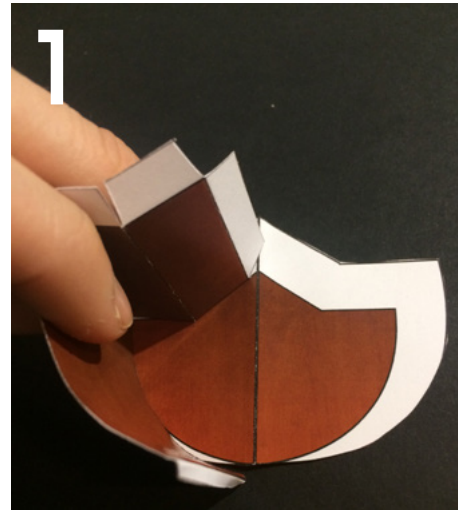

Assembly/Gluing

Do it twice

Part to use

Align the C part on the brown shape of B part, then stick it together using the tabs

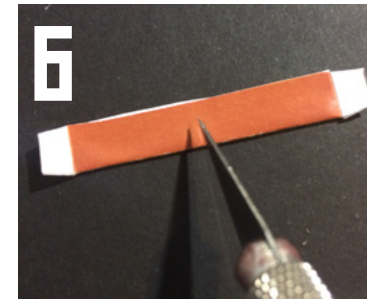

Fold and stick the B part on itself.

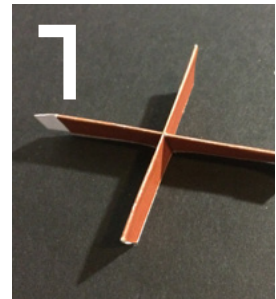

Stick the whole in the hole of A part

Close the whole

Cut a notch on the dotted line once D part is folded and stuck on itself. Do it on the others

Make a cross in imbricating the two pieces.

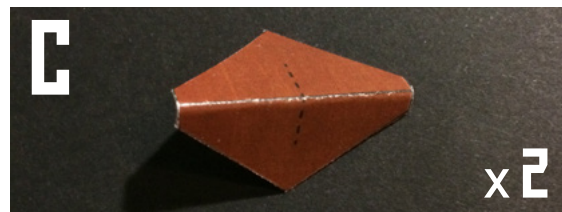

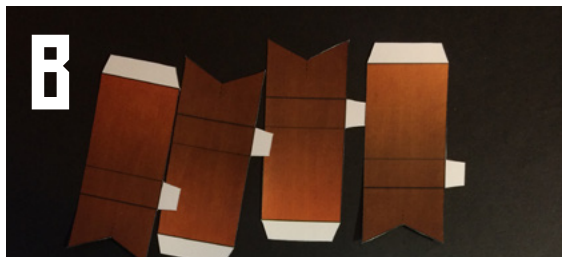

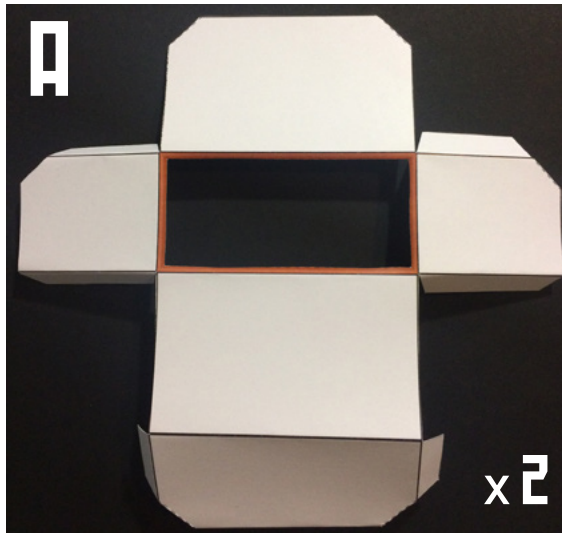

Stick the crosses with the tabs on the side. Be careful, put it in the right way, the tabs on side, the rounded shape on the up and down.

STEP 4

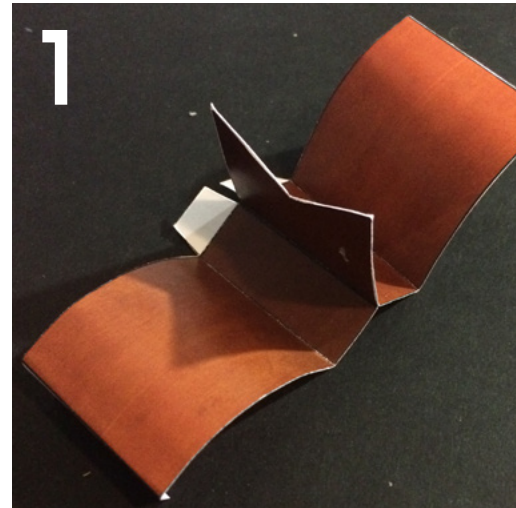

Assembly/Sticking

Do it twice

Pièces à utiliser

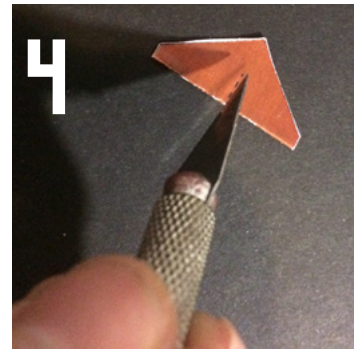

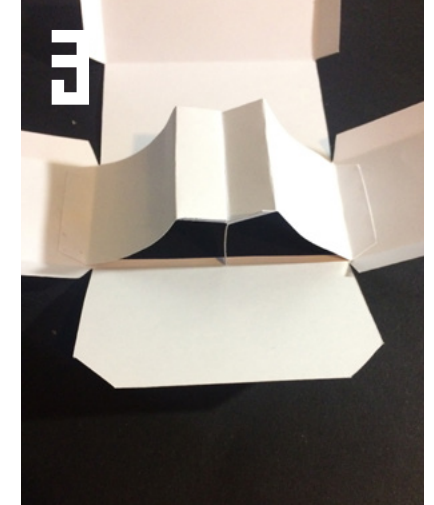

Stick 2 B parts together like this

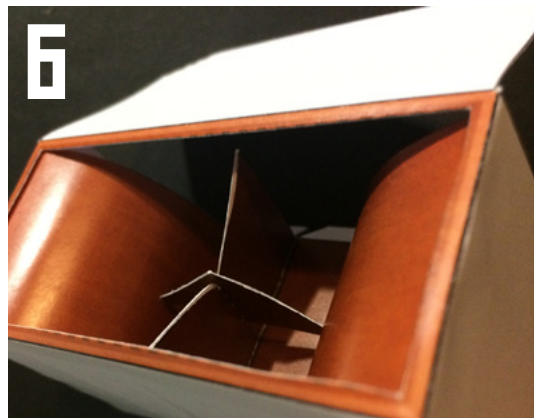

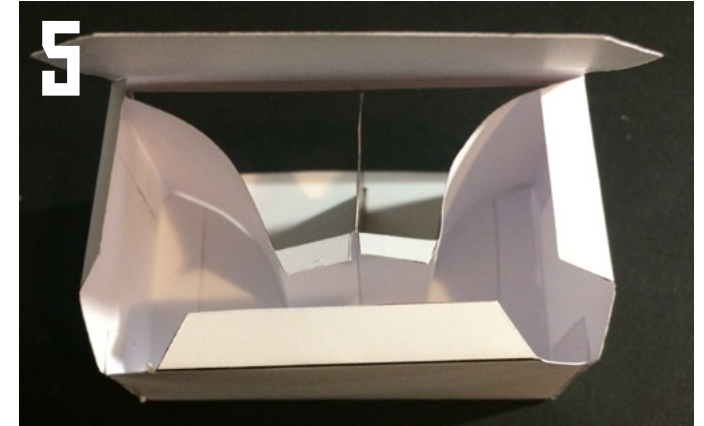

Cut a notch on the dotted lines

Stick the previous on A part

Stick C part on itself and cut a notch on dotted lines

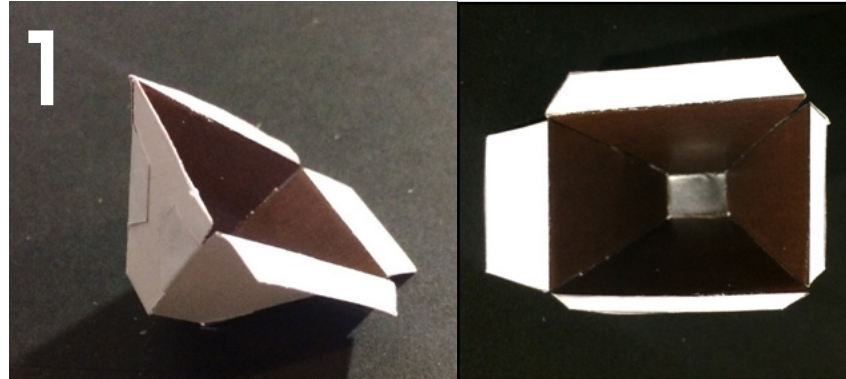

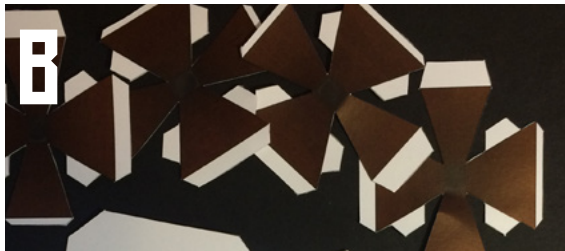

Imbricate the C part in B part using the notches done previously, then close the last face open.

STEP 5

Assembly/Sticking

Do it twice

Pars to use

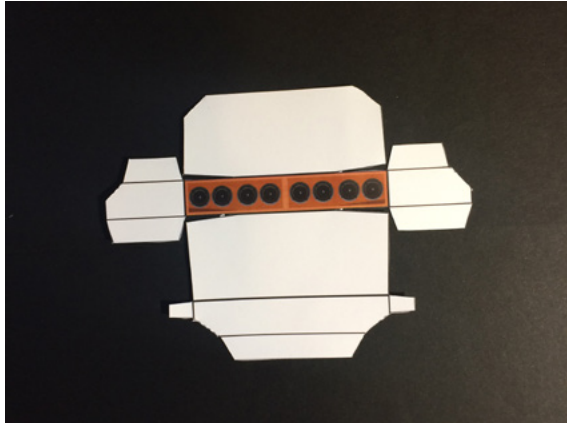

Stick the B parts on A part
Careful, the big tabs of B must be stuck
on the side parts

Close the whole

STEP 6

Assembly/Stick

Pièces à utiliser

Close
